> Hi, I'm Julien! My ambition is to architect and manage the successful development of platforms which help solve meaningful issues.

Relevant Experience

2017 - Present

Task Force Technical Leader & Front End Team Leader
Healthy.io

- Providing technical, architectural and agile leadership for a cross disciplinary task force building Healthy.io's infrastructure platform.
- Collaborating with all departments to serve their needs and ensure the platform enables scalable growth.
- Providing technical leadership for a second team of 6 front end engineers building the company's customer facing web applications.
- Managing the hiring process for front end engineers and guiding their growth.

2015 - 2017

Full Stack Developer
monday.com

- Developed a few of monday.com's largest features, including its account admin, team management system, and the Gantt-like Timeline.
- Rebuilt from scratch monday.com's homepage using a static site generator and placing emphasis on performance, responsiveness, modularity, and SEO.

2012 - 2015

Full Stack Developer
Signals Analytics

- Served as technical adviser on new projects, defining methods for data collection, transformation, and analysis.
- Designed and developed a BI-reporting tool and interactive data visualization sites for Fortune 500 clients.

2011 - 2012

Full Stack Developer
Waste To Watts

- Developed a platform to store and display data in real-time about the health of the power grid in India.
